

## Cub Corner

Well Folks, the Irma Cub pack is now pretty well organized with some forty enthusiastic young boys.

A Cub and Scout Rally is being held in the theatre at Camp Wainwright on March 13 at 7:30 p.m. Everyone, especially parents, are welcome to attend. Each Cub pack and Scout Troop are participating in this rally. The boys are asked to attend in uniform.

The parents are therefore asked to co-operate and purchase jerseys and caps as soon as possible. The jerseys retail at \$4.25 and caps \$1.50. Money for these may be left with Mr. Bob Harris at Bank of Montreal and with Mrs. Elsie McRoberts at school so that order may be sent soon. We will also need sweater and cap size for this order.

As in any other organization the group committee cannot operate efficiently without a certain amount of funds. Contributions would be most welcome. Cans for this purpose are being placed in all business places in town. The committee would like to see these cans so that they may complete the boys' uniforms with neckerchiefs, stripes, flags, etc.

## Meetings in United Church Feb. 10

Miss Marion Thomson, Field Secretary for the W.M.S., Toronto, will be in Irma on Tuesday, Feb. 10 and will conduct meetings in the United Church at the following hours:

9 a.m.—in the church parlour with the group leaders. All ladies interested in giving leadership, cordially invited.

2:30 p.m.—An invitation is extended to all interested ladies. A film will be shown and a general outline on Mission work given.

7:30 p.m.—for leaders of teenage girls, also interested mothers and friends.

It is estimated that in 1958 the total capital outlay by business and industry in Canada—which is the job-creating form of capital investment—will be about 13 per cent below the 1957 level.

## CHURCH SERVICES

Everyone is welcome to worship.

H. W. Inglis, Minister.

### SHARON LUTHERAN

Sunday, February 8th  
Sunday School and Bible Class 2 p.m.

Divine Worship 3 p.m.  
C. W. Magee, Pastor.

## WITH THE District Agriculturist

By J. S. Duncan

### HOG PRODUCTION COSTS:

A recent release on the subject by Mr. Charnetski provides some interesting statistics. Mr. Charnetski took as his example a 42-unit market unit over 600 pigs per year. Feed costs were based on the actual market price received by farmers and all other production costs such as labour, depreciation, interest on investment, veterinary fees and medicines were included.

Records were broken on a price of \$2.50 for A's, \$20.50 for B's and \$16.50 for C's. It was assumed that a reasonably good operator should produce 35% A's, 5% B's and 6% C's.

With this basis it was found that the operator's labour earnings would be \$746 per pig without including the grade bonuses or \$8.75 when the bonuses were included. Anyone wanting a copy of this release can get one from this office.

### EXTRA FEED FOR THE BREEDING HERD:

The quality of rough feed isn't all that it might be this year and in some cases there is not enough quantity either. It is a good idea to feed some grain as well to the cows so that they maintain or improve their condition.

Failure to keep cows in good shape can result in at least a weaker crop of calves and possibly losses of both cows and calves at calving time. From 2 to 4 pounds of grain per head per day, depending on the amount and quality of the roughage will be a big help. Use of Vitamin "A" supplement is also a very good idea.

### NEED A BULL?

Right now there is a reasonable supply of bulls around; this may not be true later in the year. It also looks as if prices may be fairly high. If you will need a new bull, now is a good time to look for it. The Cattle Improvement Policy is available to commercial cattlemen who have not got a bull through it since January 1958. For information contact this office.

## NORTH EAST CORNER

Visiting at the home of Mr. and Mrs. George Likness on Wednesday was Mr. Likness nephew, Gary Johnson of Camrose.

Mr. and Mrs. Archie Cook and Lorrie journeyed to the coal mine at Fortin last week. They spent some time visiting with Archie's parents at Galahad.

Our local curlers did very well at the recent Farmers' Bonspiel in Wainwright. With Archie Cook as skip, and Don MacKay, Bill Dootson and Bill Veer playing they walked off with the top prize, tri-lights and trophies.

We were glad to hear that young Alan Parsons has returned home from the hospital. At his tender age, we doubt if he'd be as impressed by the nurses as he may be in, say, another 18 years or so.

The sort of weather we have been having this year is always a favorite topic. We had enough cold in January to do the first two months. Now that February is here, the days seem full of March's changeableness. We wonder what comes next.

We learned that Mrs. George Younker entertained a young man Sunday evening. Rumor has it that he'll probably be around quite often. Oh, yes, his name (almost forgot that) is Garnet. He was accompanied by his parents, Mr. and Mrs. Jack McKay.

On Tuesday, Mr. and Mrs. Oscar Cook and Everett of Galahad visited with the Archie Cooks'.

News seem rather scarce these days. Anyone having any, is invited to get in touch with me at R.R. 116 or Box 278.

The Canadian labour force was estimated at 6,177,000 in February, 1958, an increase of 16,000 from one year earlier.

## Minutes of Village Council Meeting

Minutes of the regular monthly meeting of the Council of the Village of Irma, held in the Village Office on the 2nd day of February, 1959, at 8 p.m.

Present: Councillors Meier and Sampson; Secretary-Treasurer A. C. Charter.

Vice-Mayor Mr. L. E. Meier presiding.

The minutes of the last regular meeting of the Council were read and on motion of V. S. Sampson, adopted as written.

Mr. Gage Pendleton was present at the meeting in respect to certain water and sewer charges.

Whereas Mr. Pendleton's sewer was not in service and also that no water was being taken from the Town System for use outside Mr. Pendleton's property.

Mr. V. E. Sampson moved that these charges be waived by Mr. G. Hockett in like respect. Cd.

The annual Municipal Inspection report was read for the year 1958.

After discussion thereon, was ordered filed. Motion by V. S. Sampson.

Correspondence:  
Civil Defence Bulletins. Filed.  
Imperial Oil Co. re Bulk Plant changes. Leased site C.N. Ry. Approved.

Alberta Municipal Finance Corporation. Filed.

Alberta Equalization Board re return of assessment information. Information supplied by Secretary and forwarded.

Soldier Settlement and Land Act re Block H Plan 1560. Filed.

Audited Financial Statement presented for the year 1958. Adopted and ordered filed on special file. Motion by V. S. Sampson. Cd.

Financial Statement (Monthly):

Net Balance at end of previous month \$11,802.47. Net Income \$60. Disbursements \$146.11. Net balance at end of month \$11,820.26.

Balance Savings account — \$370.84.

Financial Statement accepted on motion Sampson. Cd.

In the matter of renting the steam boiler to persons outside the Village, Council decided that a charge of \$10.00 shall be minimum. Motion by Sampson. Cd.

L. E. Meier moved that accounts as herein set under be passed for payment. Cd.

Imperial Lumber Co. Ltd. \$ 4.00

Martin Enger 234.08

Alberta Telephones 4.70

A. C. Charter, etc. 162.84

Fred Jack Hardware 7.07

Central Sales and Service 7.25

Minburn-Vermilion Health Unit 4th Gr. Requisit. 92.62

N. U. Ltd. Repair Job 38.70

Municipal Supplies Ltd. 22.50

Fairbanks-Morse Co. Ltd. 2.48

Ed Sharkey, Police 12.00

In the matter of setting date for Court of Revision, matter deferred until Council present.

Letter from the Municipal District of Wainwright indicated that rates for the Battle River Lodge Home for Elderly Citizens would be \$65.00 per month per person; for married couples or two sharing one room \$60.00 per person. Applications to Matron of the Home.

Adjournment.

A. C. Charter, Secretary-Treasurer, Village of Irma.

## NEWS FROM THE JACKSONS'

We received a letter from our good friends Mr. and Mrs. J. Jackson who left Irma on Jan. 25 with Mr. Jackson's brother George of Sedgewick. They arrived safely at their destination, St. Helena, California, and are now basking in daytime temperatures of 70 degrees—a marked contrast to conditions when we said "Goodbye" to Bertie, Beverly and family at Edmonton. There was a wind-chill of 30 below and snowing drifts now that day.

The bus route was via Calgary, MacLeod, Pincher Creek and the Crow's Nest Pass to Creston. Here they left the Vancouver bus and joined one going south to Bonner's Ferry, Spokane and Portland, where they stayed over night. Departing at 7 a.m. Wednesday, Sacramento was reached at 9:20 p.m. for another overnight stop. Sad to relate, the hotel elevator was being repaired and the travellers had to climb to the 5th floor by way of the stairs.

The bus on Thursday covered the final leg of the journey and just after noon St. Helena was reached. The Jacksons were greeted by their uncles, two grand old men of 81 and 87 years. From the way they describe conditions south of the border, we wouldn't be too surprised if Irma and Canada lose two good citizens. St. Helena is a cosy little town of 3,500 population, situated in the Napa Valley which is famous for grapes and wine and also grows good tomatoes, peaches, apricots, oranges, lemons, grapefruit, walnuts and olives. It has a wonderful climate and the natives are very friendly and hospitable—a grand place to live.

Next week, Mr. and Mrs. Jackson will visit their old friend and one-time Irma resident, Mr. C. I. Young and his wife who live near Long Beach, California. Meanwhile our travellers send their kindest regards to all shivering friends at poor old snow-covered Irma.

## Chauvin Beats Irma Again

### 32 RINKS ENTER MEN'S OPEN 'SPIEL'

The annual Men's Bonspiel is off to a good start at Irma with 17 visiting rinks and 15 local rinks in play. This makes a total of 32 rinks which is a draw-maker's dream.

The weather has been fine and by Tuesday night there were no local rinks left in the first competition.

We will have a full report on this 'spiel in next week's issue.

### Glen-Coe Gleanings

Our congratulations to Mrs. Jennie Larson who celebrated her 86th birthday last Sunday, Feb. 1. This bright-eyed little lady is beloved by all. Neighbors dropped in to bring her greetings during the weekend. Her grandson, Oren Spring, made it home from Drayton Valley for the important occasion.

Mr. Gordon Hollinger of Edmonton was home for a brief visit at the first of this week.

Two carloads of Sharon folk motored to Camrose on Wednesday evening of this week to hear the famed Concordia College Band from Moorhead, Minnesota. If it is as much appreciated as the operetta the "H.M.S. Pinafore" in Wainwright last week it will be an evening well spent. Further comments will be given next week.

Mr. and Mrs. August Frauenfeld, residing in Vancouver for the winter, are now the proud parents of a daughter born on Jan. 30, weighing 7 lbs. 7 oz. Mrs. Frauenfeld is the former Evelyn Erickson of this district.

## BUYING CHICKS

1. Only top quality breeding  
stock should be purchased. Place  
your hatchery order early, during  
the month of April, latest, for replace-  
ment stock to be delivered before  
the end of April.

MANAGEMENT OF THE  
CHICKS

1. A good commercial chick  
starter in mash or crumble form  
should be fed for at least the first  
six weeks preferably to eight  
weeks age.

2. During the growing period al-  
ways feed a concentrate properly  
mixed with ground grain or in the  
pellet form.

3. Always feed according to the  
feed manufacturers recommendations  
as he knows exactly what is  
needed. Do not aim at saving  
if you want well developed birds  
for the laying house.

## CARE FOR THE BREEDERS

1. House the birds when about  
10 percent of them are in production  
but always by the end of September.

Remember to handle them  
gently, the birds are very sensitive.

2. If there is no problem, no  
attempt should be made to  
breed again.

3. If there is a problem, no  
attempt should be made to  
breed again.

4. Temperature should be  
kept constant.

5. Temperature should not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

6. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

7. Good ventilation is  
essential.

8. Soluble grit or oyster shell  
should be available at all times.

9. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

10. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

11. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

12. Good ventilation is  
essential.

13. Soluble grit or oyster shell  
should be available at all times.

14. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

15. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

16. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

17. Good ventilation is  
essential.

18. Soluble grit or oyster shell  
should be available at all times.

19. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

20. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

21. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

22. Good ventilation is  
essential.

23. Soluble grit or oyster shell  
should be available at all times.

24. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

25. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

26. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

27. Good ventilation is  
essential.

28. Soluble grit or oyster shell  
should be available at all times.

29. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

30. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

31. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

32. Good ventilation is  
essential.

33. Soluble grit or oyster shell  
should be available at all times.

34. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

35. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

36. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

37. Good ventilation is  
essential.

38. Soluble grit or oyster shell  
should be available at all times.

39. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

40. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

41. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

42. Good ventilation is  
essential.

43. Soluble grit or oyster shell  
should be available at all times.

44. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

45. Care should be taken that  
the temperature does not drop too  
low in the house as the freezing  
of the males combs impairs their  
activity and results in decreased  
fertility.

46. Temperature should not rise too  
high in the house as the combs  
of the males become either  
either dead or shriveled.

47. Good ventilation is  
essential.

48. Soluble grit or oyster shell  
should be available at all times.

49. Where power is available  
the artificial lights will greatly  
assist in getting the egg production  
during the winter months.

One 60 watt light with a reflector  
should be used for each 200 square  
feet of floor space and some ar-  
rangement should be made to con-  
tinually give the hen a 12 to 14  
hours day.

50. Care should be taken that  
the temperature does not drop too

## News Report From Edmonton

By Ken Mason

**EDMONTON**—Everything is in readiness for Thursday's opening of the fifth session of the 13th Alberta Legislature.

And from all indications, it will be a lively session. The government's five-year development plan shapes up as the biggest single issue, and is likely to figure in most of the debates.

Lending added significance is the possibility that this session may be the last of the current legislature. If the political pundits are right, there'll be a general election sometime in the coming year. And this will undoubtedly mean a heavy increase in the political content of House debates.

Here are some of the highlights of the Legislative program the government is expected to introduce:

1. An all-time record provincial budget of around \$300,000,000, exceeding the previous record of \$285,000,000 set two years ago. The increase will be due almost entirely to greater departmental spending resulting from the five-year plan.

2. Legislation to expand the scope of the revitalized Municipal Finance Corporation, authorizing it to lend money for school and hospital as well as municipal capital works.

3. A bill designed to bring nursing home care for chronic patients within the existing provincial hospital insurance plan. The government proposes to build 35 or 40 nursing homes, at a cost of around \$15,000,000.

4. Introduction of government-guaranteed farm home improvement loans. The government will guarantee 50 per cent of interest and principal on loans to a maximum of \$2,000.

5. Amendments to the Vehicles and Highway Traffic Act, increasing speed limits to 65 m.p.m. on four-lane highways and divided highways.

6. Establishment of a separate department of labor, and appointment of a minister to head it.

7. A bill to launch an expanded scholarship program which will cost more than \$1,000,000 a year and guarantees every deserving student a university education.

There also will be budget appropriations to launch the first "special project" of the five-year plan—the building of 54 homes for the aged throughout the province at an estimated cost of \$16,000,000.

Traditional pomp and ceremony was to mark Thursday's opening. A 15-gun vice-regal salute was to boom out across the North Saskatchewan River valley as Lieutenant-Governor Bowlen arrived to open the session and read the Speech from the Throne giving the usual sketchy outline of the government's legislative program.

On Friday, Dr. W. W. Cross, former health minister, will move the reply to the governor's speech. It will be seconded by George Bell, Social Credit MLA for Gleichen.

The following Monday, W. J. Grant MacEwan, Calgary, will make his debut as newly-elected Liberal party leader and launch the Throne Speech debate.

There'll be another new party leader in the House this time. He is W. J. C. (Cam) Kirby, Red Deer, elected last fall to head the Progressive Conservative Party in Alberta.

The House also will receive a new member during the session. The winner of the by-election slated for Olds riding on Feb. 9 will have to be sworn in and take his seat after the session opens—probably during the second or third week.

Two important reports are expected to be submitted while the House is in session. One will be the report of the Cameron Royal Commission, which has been making the most exhaustive study to date of the Alberta education system.

The other is coming from the government committee set up to study Alberta's Hutterite colony problem and the Communal Property Act which restricts Hutterite land holdings. This one can be expected to cause plenty of contention.

Finally, there's a chance that the session will end with the calling of a snap election. Some observers say that if the Opposition acts tough and tries to throw its weight around this session Premier Manning may feel it

### WHAT YOU SHOULD KNOW ABOUT FURNITURE:

Learn to distinguish between solid woods and finishes. A cheap wood is often finished to look like higher priced walnut or mahogany. Hardwoods wear best, have beautiful grains that take good finishes. The most frequently used are walnut, mahogany and birch.

Here are some ideas that will be of help to you:

1. Choose your store carefully. A reliable store with a good reputation is your best guide to confident shopping.

2. Look around to see what prices are available.

3. Know the size of the piece you will need.

4. Avoid a "dipped finish" (looks almost as if it's painted) as it does not stand up so well. A varnished or oiled finish is best.

5. Examine furniture in a good light.

The light of a piece of furniture depends on its construction. Since a great deal of this is hidden or is not apparent it is most important that you learn a few details to help you compare quality workmanship with badly built items.

**JOINTS:** See how the legs are attached on chairs and tables. Daweled or mortise and tenon joints are the strongest and best construction here. Nails are used in lower price furniture instead of screws and joints.

**CORNERS:** The corners of chairs and tables should be reinforced underneath with blocks of wood—glued in, they should be reinforced by screws as well.

**TABLE TOPS:** As well as being glued to the base, a table top should be attached with screws or steel clips to anchor it to its base.

**DRAWERS:** The strongest and best drawers have dovetailed joints and a centre glide underneath. The inside of the drawer should be finished with shellac or wax to seal the wood and protect it from dust and moisture.

**HIDDEN PARTS:** The back and underneath of good furniture should also be well sanded and finished. On very cheap furniture the backs of chests are often just pieces of cardboard, stapled on.

### TESTS YOU CAN MAKE IN THE STORE:

1. Slide the drawers to see that they move easily without sticking. Pull at one end, if they are well balanced they need not be pulled from the centre to glide smoothly.

2. Make sure doors close easily, don't stick, that the edges fit without sagging.

3. Never buy a sofa or a chair without sitting in it. Even good ones may be a bit too small to be comfortable.

4. Rub your fingers over the concealed parts—inside of drawers, inside frame, underneath back. You may feel roughness. You cannot see, and the smoothness and finish of these parts is a good indication of the quality of the furniture you are buying.

Furniture featuring simple lines are your best buy. Fab and very decorative pieces not only cost more and lose style quickly but are harder to take care of.

St. George's Cross and St. Andrew's Cross Bingo's have been won.

It would be good tactics to go to the public immediately and seek a new mandate on the strength of his five-year plan.

On the other hand, some feel autumn is a more likely time for an election. Planning for the forthcoming royal visit might make it difficult to hold a spring election and the visit itself in the summer might rule out a July or August election.

We may have a better idea toward the end of March when the session ends.

## Northern Nuggets

Buffalo Coules WI will meet at the home of Mrs. Archie Fleming on Thursday, Feb. 19. Hostesses; Mrs. John Barsz and Mrs. Robt. Lukens; Contest, Mrs. Miller; Roll Call; "Suggestions to improve our meetings." It was decided at the January meeting that an Amateur Hour would be held in the Albert School on Feb. 27. Watch for further announcements.

Last Friday Mrs. Dick Gower left by plane from Edmonton for her home in Toronto.

During Mr. Ralph Mark's stay in hospital, Mr. Bert Cindell is looking after his farm in the Bats district.

Old friends will be sorry to hear that Mr. F. Pile is a patient in the Vancouver General Hospital.

Mr. and Mrs. Barry Holt, now of Calgary, were Sunday visitors at the home of Mr. and Mrs. Phil Holt.

Last Thursday evening, while riding in the back of a truck, Dickie Allen had both of his ears badly frozen. We are glad to say he was able to return to school on Tuesday.

Claudia and Patry Ramsay and Tannis Beckett spent the weekend at the home of Barbara Hardy to help her celebrate her 18th birthday. Mrs. Claude Ramsay and Bobby and Tommy arrived on Sunday in time for the big party.

It is estimated that consumer spending in Canada in 1958 will total \$20.6 billion. The 1957 total was \$19.5 billion.

Over the past 12 months Canada's money supply has been increased by \$1,600,000,000 to more than \$13,000,000,000.

## Pancake Day February 10th

You may have thought it only recently that Shrove Tuesday has become known in many countries as Pancake Day. The truth is, however, that pancakes have been served on this last day before Lent since early in the Christian era.

Originally Shrove Tuesday was a religious holiday and pancakes were chosen by the church as the official food for the day. Even the recipe for the pancakes was designated by the church and most of the ingredients had symbolic significance . . . flour for the staff of life, milk for innocence, salt for wholesomeness and eggs for vitality.

Lent then was very strictly observed and because eggs, butter, lard and milk were among the foods prohibited during the period, homemakers used up their supplies of these foods in the pancakes they prepared.

Today Shrove Tuesday is no longer a religious holiday . . . it is a day of fun and gaiety. In England many contests, including an annual pancake race, are held on this day and in some cities such as Rome, Paris and New Orleans where the day is known as Mardi Gras, merry celebrations include spectacular parades, costume balls and magnificent feasts.

Those things that come to the man who waits seldom turn out to be the things he's waiting for.

About half the annual pulpwood harvest of Canada comes from the province of Quebec.

The ravages caused by fire, insects, and disease in the forests of Canada are excessive.

## NOTICE OF MUNICIPAL MEETING AND NOMINATION OF CANDIDATES at General Election

Notice is hereby given that a Meeting of the Electors of the County (or) Municipal District of Wainwright No. 61, will be held at LO.O.F. HALL, WAINWRIGHT, ALBERTA, at one o'clock in the afternoon on Saturday, the 21st day of February, for the discussion of the affairs of the district and that from three o'clock in the afternoon to four o'clock in the afternoon on the same day and at the same place, nominations for the office of Councillor will be received.

1 Councillor is to be elected.

Councillor is to be elected for the following electoral division:  
**DIVISION 3.**

At the same place, time and date above mentioned, nominations for members of the Boards of the following Municipal Hospital Districts will be received.

1 Member of the Board of Mannville Hospital District No. 1  
1 Member of the Board of Wainwright Hospital District No. 17

Given under my hand at Wainwright this 21st day of January, 1958. CHAS. WILBRAHAM, Returning Officer.

### NEW ROYAL YORK SALUTES CANADA:

A distinguished group of Canadian designers, artists and artisans blended their ideas and skills to achieve a distinctive Canadian theme in the public rooms named and decorated for the provinces of Canada in the new 400-room, air-conditioned addition to Toronto's Royal York Hotel. The new addition, boosting the hotel's capacity to 1900 rooms, making it the largest in the British Commonwealth, will be formally opened February 21, by Ontario's Premier Leslie M. Frost, in the presence of N. R. Crump, president of Canadian Pacific, and other government and business leaders. ABOVE: The Royal York as it appears with a new addition (right); TOP LEFT: Montreal artist Charles Greenwood puts finishing touches to his 10 by 9 foot reproduction of J. D. Kelly's original canvas, now part of the Confederation Life collection, depicting purchase of the site of

Toronto from the Mississauga Indians in 1766. This painting appears in the Ontario Room. LOWER LEFT: Mrs. Bessie Schenew, of Calgary, makes a neat job of the Duke of Windsor's E.P. ranch brand, one of 312 authentic Alberta cattle brands set into 91 leather panels adorning walls in The Alberta Room.

Canada's mainland seacoast totals 16,000 miles. Only two of the ten provinces—Saskatchewan and Alberta—do not border on salt water.

WORKING WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1817  
B.M.B.C.

"The Ten Commandments" Film Coming To Viking

The Ten Commandments, the Cecil B. DeMille production for Paramount release which was ten years in advance preparation, with three years spent in research and preliminary exploration and three years in the writing, will open on Thursday, Feb. 26 at the Brock Theatre.

Filmed in VistaVision and Technicolor for Paramount release, the picture is the dramatic narration of the life of Moses, with Charlton Heston in the role of the great prophet. Yul Brynner as the Pharaoh of the Exodus, Anne Baxter as Nefertiti, the Throne Princess of Egypt, and Edward G. Robinson, Yvonne De Carlo, Debra Paget, John Derek, Sir Cedric Hardwicke, Nina Foch, Judith Anderson and Vincent Price in other key roles, with an imposing supporting cast.

The production, biggest in the history of motion pictures, had the longest filming schedule in movie history, including three months of filming in Egypt and the Sinai Peninsula, followed by 120 work days in Hollywood.

"The Ten Commandments" is Cecil B. DeMille's seventeenth motion picture. Known to Hollywood as "Mister Master," DeMille during his long and distinguished career, has received endless professional honors, including two Oscars and the Motion Picture Academy's most coveted award, the Irving G. Thalberg Memorial Award of "consistent high quality of production achievement." The famous producer-director calls the story of Moses in "The Ten Commandments" the "most compelling I have ever explored."

Some forest taxation discourages proper forest management. Most of the pulpwood harvest comes from provincial lands. The pulp and paper mills of Canada spend millions annually in fire prevention.

**Kinsella News**

BRIDAL SHOWER

About thirty-five ladies attended a bridal shower at the Memorial Hall on Saturday afternoon in honor of Mrs. Wm. Billow (nee Violet Overbo). The bride of honor was the recipient of many pretty and useful gifts, for which she graciously thanked the ladies. A buffet tea was served.

Mr. and Mrs. W. Billow and Mrs. Billow's sister, Mrs. J. Stewart, all of Edmonton, spent the weekend at the home of their parents, Mr. and Mrs. H. Overbo.

Miss Mary Bilo, Miss Shirley Davis and Mr. Mason Davis of Edmonton were visiting relatives and friends in Kinsella during the weekend.

The annual congregational meeting of the Kinsella Church was held on Thursday evening, Jan. 29th. Reports of the various church organizations were given. These showed that much progress has been accomplished, especially during the year in the renovation of the church.

Greg Loades celebrated his 14th birthday anniversary on Tuesday, Jan. 27th by entertaining a number of his friends at supper.

Mrs. and Mrs. G. Paterson arrived home from Victoria on Sunday accompanied by Miss Marilyn Paterson.

Donation to the Kinsella Church Improvement Fund in memory of Mrs. B. Barber from Mrs. C. Powell.

**SCHOOL BASKETBALL**

Kinsella girls lost to Riley girls in basketball last Friday 22-8. The Kinsella boys won their games 26-16. Unless final games are played in Kinsella, the last round-robin game will be held here on Friday, Feb. 13th when Kinsella teams will be host to Totfield. This game should be of special interest to Kinsella as Mr. Harris, our former principal here will be down to see if his former pupils are still in top form.

### BEST LOVED MELODIES

Every Sunday from five until ten-forty-five CFQC has a program of music under the title of "Best Loved Melodies."

There are no particular categories other than that indicated by the program title. They are at times taken from the light classics but more often than not they are tunes which have come from recent and not so recent stage, screen, movies and have at first glances only their universal appeal in common.

However, closer examination brings to light several other common points. One that these tunes, though somewhat simple and elementary, are invariably well constructed and more often than not are beautifully arranged. Another is that these tunes were originally sung or played by established artists who were, or less set the pattern for the performance of these songs by others.

Not least in the recommendation of these songs is the fact that despite their general status as popular songs they were nevertheless skillfully composed, arranged or conducted by some of the world's greatest artists.

In a way these "Best Loved Melodies" represent CFQC's music policy. We felt that it was wrong that the best of Canadian music, found in the "Top Hundred" and strangely condoned by the C.R.C. on the "Cross Canada Hit Parade," should be allowed to exclude these beautiful songs to a point where their careers grew up unawares of their existence.

Much harm has been done to Radio through the use and promotion of shoddy music. It has driven away a great many of the older and more discerning listeners.

This is the lost audience which CFQC hopes to regain through its new policy in regard to music.

Some weeks ago, in an attempt

### Pion-Era appointments made

The appointment of an executive committee and chairman for Pion-Era, was announced recently by Executive Director Bernice Norman.

Mrs. Norman said that plans for another new and different Pion-Era celebration were going ahead and that most positions necessary to the successful planning and staging of the event had been filled. Pion-Era '89 will be held during the week of June 29-July 4.

Mrs. Marian McCormick a long-time resident of Saskatoon was named executive secretary of Pion-Era. She will be in charge of all financial matters.

Following the recommendation of last year's Pion-Era Board, Mrs. McCormick will be sole recorder for all committees.

In that capacity she will coordinate the activities and communicate with the executive director.

Mrs. McCormick was a legal secretary in Saskatoon for a number of years, and has also had considerable experience as an accountant and office manager.

Mr. John E. Hay, chairman for the current year, is Hay, Hay, a Saskatoon optometrist. Mr. Hay is well known provincially and nationally through his activities as the School Trustees' Assn. and dental committee chairmen of organizations.

Mr. Hay's wife, Mrs. Leona Lewis, and her third year as chairman of The Threshermen's Club, an auxiliary organization of the Western Development Museum, responsible primarily for organizing manpower necessary for the show.

We know that because of the great variety of tastes in music that it is not possible to please everyone, we can but endeavor to bring back the purity to the sound of broadcast music.

May I once again remind you that good music needs your support so please write to us giving your views on our music programs.

## The Weeklies Say

(The Record, Rimley, Alberta)

**A FAITHFUL CHRONICLER**  
Each hour . . . history is made in village, town and city. To the faithful chronicler of these events, the writer on the weekly newspaper is indeed important. The importance of the local newspaper in keeping the "heads of events and personalities flowing into the loom of history" —Powder River (B.C.) Watchman

**THE HOME-TOWN MERCHANT**  
Did it ever occur to the average citizen that the merchants are the ones who have to pay the most taxes? Is this not one good reason why citizens should buy at home and patronize the local business firms?

—Lindsay River (B.C.) Watchman

**OFFICIAL CHECKERS**  
Canadian farmers do not want any regimentation, with government officials hovering over them to see that production is cut down to what is expected to meet the market requirements. Nor do our farmers want government inspectors to tell them what to produce. Neither proposal was mentioned when the assurance of price supports was promised.

—Brooks Bulletin

**A MODERN PROBLEM**  
Looking more soberly upon the recent mine disaster at Springfield, N.S., the incident seems now to emphasize a grave and modern problem of the age. It is the displacement of men by changes in markets, product needs and mechanization.

Lachute (Quebec) Watchman  
**SOME WINTER THOUGHTS**  
If the winter of 1958-59 is going to be, as it appears, "the big one," the outlook for the next few months could be grim if we allowed our thoughts to dwell too much on the snowdrifts, roads and street conditions, the size of the fuel bill and the sundry problems which are side-kicks of a tough winter. For these northern parts, though, the winter can be the big playtime of the year.

—Melita (Man.) New Era

**LONG DISTANCE IS Cheaper THAN YOU THINK**  
... use it often

PANCAKES TRADITIONAL FOR SHROVE TUESDAY

You won't have to call the family twice when they learn this hearty meal is waiting for them! Serve large, light and tender golden pancakes with pan-fried sausages, plenty of butter and good Canadian maple syrup for breakfast, lunch or supper on Shrove Tuesday and often throughout the year.

## Musically Yours

By BUD HAFSTEINN, Musical Director

### THE CFQC RECORD LIBRARY

In this article I should like to acquaint you, the listener, with the Record Library which is the source of all kinds of music which you listen on your radio. Because of its size and variety, the operation and maintenance of the library is one of the most important and exacting jobs in the station. This position is very capable hands in the librarian, Mrs. Eleanor Callies, who by means of musical training and experience unusually well qualified.

Eleanor Callies began her training with piano lessons at the age of three and these lessons were continued until she reached the age of 18. At the age of eight she became a member of a church choir and began formal singing lessons at 14. She also studied theory for two years from the age of 11 to 13. She received her diploma from Royal Schools of Music, London, England. A six year period in England for study whereupon she returned to Canada and did CFC work from Calgary, going from there to Vancouver, where she did radio and television work and also work in Churches. She also founded the Chet Society which is still very active in music development doing such things as providing scholarships each year and educational opportunities generally. Since her coming to Saskatoon, Eleanor Callies has been active as a soloist, music teacher, choir leader and adjudicator. This is only a brief outline of the musical background of our librarian who's well trained guidance

serves to keep the day to day programming consistent with CFQC's music policy. Here in her own words: Eleanor Callies describes her duties of the Record Library:

In speaking of Radio Library work I cannot be too enthusiastic. Accuracy and dependability are essential. First there is the variety of duties. Auditioning new releases, keeping the library up-to-date on the latest catalogues of sound, be it music or the changes in sound effects, i.e., steam engines to diesel. Shipping of tapes and recordings to different stations, large and small, so that they can use them on schedule giving them a sense of adventure and efficiency. Once taped programs have been played it is my responsibility to see that they are returned to their owners. One of the most important duties is selecting the program schedules and commercials are in the Control Room ready for the announcers and operators. From this you might take it that I choose all the music on the air. In some stations this is so, but in CFC I am responsible for some of the music played, and try to be ready with suggestions when they are needed.

Earlier I mentioned the new releases. After auditioning these are numbered according to categories which have to be entered in the files in such a way that anyone can find them, so we have a cross-file system, whereby we file the titles alphabetically and also under the performing artist's name.

A great deal of literature comes over by mail in connection with records. This I save and once or twice a month I go through it and order whatever records I feel will be of use on the programs we schedule, or will be of value at another session for some particular event. Music, like linen in a home, has to be replaced and added to as it wears out, literally, and even sometimes goes out of style.

There are of course extra little touches of time and money from time to time, such as the occasional taping commercial for a sponsor. Of course I do the "Bundle of Joy" Program every weekday morning, announcing all the new babies born in the Saskatoon area.

In the summer I take over the music and announcing for one or two programs, when asked to do so.

In our library, in addition to the records with which all of you are familiar, such as 78's and Long Play Albums, of which we have about 60,000 titles, we have three Transcription Libraries, which supplement our own library with any kind of music which may be required. These libraries are of course being added to from month to month.

The Library is the meeting place for the results from the Sales Department, Continuity Department, Traffic Department and Production and Announcing staff.

The only hazard I have found is in getting used to two or three or more records going at one and the same time, and having to learn to sort out the important ones.

The Library is like the Kitchen in a home, most interesting things happen there. It's where the seasonings are kept and from there the life of the station flows.

## MOVER, SECONDER OF REPLY ADDRESS NAMED

The address in reply to the speech from the throne at the 1958 session of the provincial legislature will be moved by Allan Brown, MLA for Bengough constituency, T. C. Douglas announced. Seconding the address will be Eldon Johnson, MLA for the Kerrobert-Kindersley constituency.

The third session of the thirteenth Saskatchewan legislature will open on February 12 at the legislative building in Regina. After a formal opening and a routine sitting on Friday, the throne speech debate will begin on Monday, February 16.

Both members chosen for the honour of moving and seconding the address in reply to the speech this year are farmers and are natives of the province, and both have records of active participation in community affairs.

Allan Lister, Samuel Brown, members of the legislature in 1944, were elected to the Saskatchewan Legislature first in 1944. Since, he has carried the banner of the CCF party successfully for his fourth time, having been re-elected in 1948, 1952, and again in 1956.

Mr. Brown was born in 1917 at Readlyn. He was educated at a rural school and at the University of Saskatchewan from which he graduated with a diploma in agriculture in 1939. At that time he was awarded the university medal for agriculture.

He has played an active part in the life of his community, having been a member of the board of directors of the Readlyn Co-operative Association. He also served on the local credit union board. From 1941 to 1943 he was a youth pool selector for the CCF. He has been the CCF nomination for Bengough.

Mr. Brown is remembered for the several campaigns in which he has handled resolutions in the house, drawing attention to the problems being faced by farmers and agriculture generally. He comes by his intimate knowledge of farm problems through his work on the farm. His parents are retired and homesteaded on the site of their present farm, which is part of nine quarters now operated by Allan.

During his 14 years in the legislature, Mr. Brown has been a consistent and conscientious worker. He holds an almost perfect record for caucus and committee meetings. Following the 1948 election he was elected deputy chairman of the committee on agriculture and fisheries. He served on the committee of the public accounts committee and as a member of the private bills, privileges and elections and crown corporation committees. Following the 1956 election he was elected deputy speaker of the legislature and chairman of the caucus.

Eldon Arthur Johnson, elected to

### TOO FAST

"Slow me down, Lawd. Ah's goin' too fast. Ah can't see mah brudder when he's walkin' past. Lawd a miss a lot of good things day. Ah don't know when I'm gonna stop. Lawd, Ah wan't see more o' th' things that's good fo' me. A little less o' me ain't mite more o' you; Ah wants th' heavenly atmosphere. T' trickles thru. Let me help a man when he's walkin' along, when he's got somethin' to say. It ain't so tough. Slow me down Lawd, so I can talk with some o' your angels; slow me down t' a walk!" — Author Unknown. — The Mirror, Maidstone, Sask.

## Woman's Way

MADELINE LEVASON

### FARM WOMEN HAVE A VOICE'

What western farm women like or don't like about the CBC is not going to escape the attention of that broadsheet itself.

Mrs. Edna Armstrong, of Huszar, Alta., one of the newly appointed CBC directors has been making the western farm women's point of view known for many years.

This list of other jobs she holds is an indication of her interest in agriculture. She is president of the Farm Women's Union of Alberta; vice-president of the Alberta Federation of Agriculture; director of the Inter-Provincial Farm Union Council; director of the Canadian Federation of Agriculture; and vice-president of the Alberta Child and Family Welfare Council.

Mrs. Armstrong has represented western women at the Western Agriculture Conference. She represented the Alberta Federation at the Canadian Conference of Education in Ottawa. Moreover, a member of a progressive family, her main efforts in all these organizations have been to improve legislation affecting women and children. Now she is representing agriculture generally on the new CBC board.

At the board's first meeting she presided over the farm women's appreciation meeting and other broadcast entertainment even more than city women who don't have to rely so much on what the airwaves bring them.

British born, Mrs. Armstrong who has lived on a farm at Huszar for 60 years, also believes the CBC has a big job to do in "co-ordinating" the Canadian viewpoint.

She says the thinking and the cultures of eastern and western Canadians, French and English speaking, Canadian and other ethnic groups must be made familiar to all Canadians before true unity will evolve.

"We don't need to lean on America or on England," she says "and I don't think that we should. We are of our own individuality. We should cherish all our various heritages but co-ordinate them into Canadianism."

It takes a wise parent to know their own child was as much at fault as the neighbors'.

SCHOOL LUNCH ROOM

OLIVER G. GRIFFITHS,  
Secretary-Treasurer,  
Wainwright School Div. No. 32  
30-6c

#### Farewell Held for Jarrow Family

A large number of friends and relatives gathered in the Jarrow Hall on Wednesday evening for a farewell party for Mr. and Mrs. Belton and Freda, who are leaving shortly to make their home in Kinseala. A very enjoyable program consisting of musical numbers, solos, piano solos, humorous reading, and recitations was enjoyed by all.

Mr. Young then called upon some of the men to say a few words. Mr. G. Bridgeman and Mr. K. Lingley both spoke on the pleasant association they had with Belton's during the years and their thanks at their leaving the community.

Mr. Belton and Freda were then called upon and a rocker chair and gift of money was presented to them. He expressed his regret at Mrs. Belton not being able to be present, saying it was 30 years since they came to Canada and 15 years they had been in the post office. He also recalled some humorous incidents of his early farming days which brought forth considerable laughter. He expressed his sincere thanks to all; and for the kindness and enjoyment they had both had in the Jarrow community.

A lovely lunch brought the evening to a close.

The best wishes of the community go with them.

The following poem composed by Mrs. Bruhuu expresses very well the community's appreciation.

#### OUR FAREWELL TO FRIENDS

It's hard to take and to believe  
The time is here again  
When we have to say good-bye  
To such good and dear friends.  
You faithfully have served us  
Each morning, noon and night,  
And often too on Sundays  
We'd get our mail all right.  
Always friendly and courteous,  
You'd stop to chat awhile.  
You've always meant a lot to us  
With you ever present smile.  
This farewell comes from neighbors,  
From relatives and friends,  
To wish you all the best in life,  
Goodbye and thanks again.

The word Ottawa was the name of an Indian tribe in the Indian language it meant "traderrs."

The pulp and paper industry purchases a third of its wood from small holdings.

## Local News

## PICTURES OF THE WEEK

**OUCH! THAT'S MY TOE** — New York — Diago, a 225-pound East Indian Dragon Lizard, sticks out his long forked tongue here in the Bronx Zoo as he has his toenails clipped by the Zoo's Director and Curator Dr. James A. Oliver (Right). At the Left, soothsayer Diago, the star of the picture proceedings, is Stephen Spencook, head keeper. A similar lizard named Blankie also got a clip job. It was a ticklish undertaking because the big lizard doesn't take kindly to people.

**PATIENT POOCH** — Dallas — A mall pooch that seems to have a real live as a cat, Chiqui, a nine-year-old Chihuahua, lies quietly in the lap of Kathy Ligon, at the youngster's home in Dallas, Weighing a fragile four pounds, Chiqui is a pet that is deemed lucky to be alive. Since coming into the world, Chiqui has suffered two concussions, three heart attacks, a sprained leg, and had undergone several operations, the last recent one to correct a hernia. Offering sympathy, at right, is friend Smoky, a much healthier canine.

**NUCLEAR FIRE ALARM** — Chicago, Ill. — Warren Ackerman, Jr. (seated) General Manager of the Pyrotechnics Division of Baker Industries, demonstrates a new nuclear fire detection system which picks up combustion gases created by fire in as little as 13 seconds via a unique method of ionization.

**ELVIS BUYS AUTO** — Frankfurt — Pfc. Elvis Presley of rock 'n' roll fame accepts the keys for his newly bought BMW 507 sports car from a pretty photographer's model as a crowd of teenage admirers look on. According to the dealer, Presley paid \$3750. for the second-hand car.

**UNDERCOVER SUNBATHER** — Miami Beach, Fla. — Anna Weber is all set for a few hours of sunbathing on the sands of Miami Beach. The straw hat and umbrella will protect her if the rays get too hot.

**FOOTING THE BILL** — New York — A shilling example of human ingenuity, this worn-out bus has a new lease on life, catering to walkers. Resting at a bus stop on New York's Fifth Avenue, the vehicle has been converted into a shoe-shine parlor. The price of a shine, 15 cents, is just what patrons used to pay for a bus ride.
